Day-03 Notes

Wednesday, 29 October 2025 8:25 AM

Installation of AEM 6.5 in your system

Now we will learn how to install cloud sdk in our local machine. Process is pretty much same only the jar file is different.

AEM was not having touch UI till 5.6 version.

WCM modes in AEM
Author
1. Edit
2. Preview
3. Design -: It is deprecated with classic UI interface

Publish
4. disabled

?wcmmode=disabled

5. ReadOnly
6. Analytics

Various Development interfaces of AEM

1. AEM Start screen
   http://localhost:4502/aem/start.htm

2. CRXDE Lite (CRX or Content repository)
   http://localhost:4502/crx/de/index.jsp

3. OSGI Console
   http://localhost:4502/system/console

4. Package manager
   http://localhost:4502/crx/packmgr/index.jsp

Folder structure understanding from CRX

Package Manager explanation

Sling Resource Resolution or Content Rendering

In terms of JCR everything is Nodes and its properties

Default Rendering script of the component -> It is file which has the same name as component name.	

In JCR everything is nodes(folders)
-----Home work----
1. AEM Cloud SDK installation in your local machine with a author and a publish server
2. Make your buddy and exchange your content package with your buddy and then share screenshots indicating that you have exchanged content from your author server to your buddy's author server.
