Day-04 Notes

Thursday, 30 October 2025 8:20 AM

Quiz 1
https://shorturl.at/mSbRu

------Content Rendering topic continuation------

Most Important property of AEM is sling:resourceType

Address
House Number/Flat number
Society name / Apartment name
Area name / Locality name
City name
Country name
Pin code

Sling
http://localhost:4502/content/hello-world.blue.red.lakshmi.html

Protocol -> http
Domain -> host+port
Host -> localhost
Port -> 4502
Content path -> /content/hello-world
Extension -> html
Selector -> blue.red.lakshmi

Sling Resource Resolution = Content Rendering

In JCR everything is Node and its properties

In Sling everything is Resource

Node ~ Resource

For a Node to become a resource it should fulfill below three conditions

1. Node should have a unique name
2. Node should have a unique path
3. Node should be able to resolve or it should have a sling:resourceType property

-----MicroKernel ----
TarMK
File system -> Tar files

MongoMK
Database(MongoDB) -> Json files

Relative Path
training/components/structure/contentpage

/apps/training/components/structure/contentpage

/libs/training/components/structure/contentpage

Order of precedence
/apps
/libs

Absolute Path
/apps/training/components/structure/contentpage

Session - 06 - Templates

1. Static Template
2. Dynamic Template (Editable templates)

Template(Teacher) = allowedPaths
Content (Classes)

Homework

1. Create a parallel project like training project with your name inside /apps and do repeat same activity like structure component creattion inside it. Then create another content node like "hello-world" node and then point sling:resourcetTYpe property on this new content node to your own project's cotentpage component and then hit this new content node which you created in browser. Repeat all the exercises of session 5 with this new project setup and share me different screenshots.
2. Complete session 6 all exercise and get the site structure created with thumbnail image for the pages and templates.
3. Once you complete session 6, repeat it with your own project which you creating in assignment 1. For the Template exercises too.
