Day-20 Notes

Friday, 21 November 2025 8:35 AM

Query Builder in AEM or how search works in AEM

We will do exercise.

Go to Session 23 and there is a java classs in side exercise folder.

Whenever you get an opportunity to work in any of Adobe's product please grab.

Workfront
GenStudio
AEM
Adobe analytics
Adobe Target
Adobe Site optimizer
Adobe LLM optimizer
Adobe Experience Platform
Adobe Journey Optimizer
Customer Journey Optimizer

Ways to Get a Resource Resolver

1. If we have to get Resource Resolver in Sling Model we get it via @Inject annotation.
2. If we have to get Resource Resolver in Servlet we get it via SlingHttpServletRequest object.
3. If we have to get Resource Resolver in normal service or in some utility class we can not use above two approaches. For this we have either of two options
    a. Get Administrative Resource Resolver (Deprecated)
    b. Get Service user Resource Resolver.

------Getting Resource Resolver via Service user--------

How to create service user and how to use it to get Resource Resolver

1. Create Service user(3 says to do it)
2. Assign permissions
3. Map Service user with bundle(Apache sling Service user mapper service amenement)

Create a service user

1. Via CRX explorer (http://localhost:4502/crx/explorer/index.jsp)
2. ACS commons Ensure Service approach
3. Repoinit

AEM Geeks
---
mysite-service-user

Bundle-symbolicname:By what Name You will Call ServiceUser=service user name

Then use it in code
